

Significant features of website

- Transition from Home (click on logo to travel to home) to About section and vice versa
 - You should see my picture move to the side into a circle and the text fade out/in
- Transition from other pages to each other
 - Depending on whether you are traveling from left to right tabs, you should see the old content slide right or left out of the page and the new content in
- Contacts button scrolls the page down into the contacts form
